

Dr. Math presents: Infectious Disease--Resistant Organisms and their Treatment

Event Agenda

Monday, November 10, 2025 at 7:30pm CT - 8:30pm CT

i All times listed in Central Time (US & Canada).

Monday, November 10, 2025

7:00pm - 7:30pm

Chapter meeting

7:30pm - 8:30pm

Infectious Disease: Resistant Organisms and their Treatment

Dr. Thomas Math

1.0 CE Credit

- Describe what constitutes a Carbapenem-Resistant Organism (CRO) and identify Candida auris as an emerging multidrug-resistant pathogen.
- Identify key risk factors, transmission routes, and environmental persistence associated with resistant organisms.
- Discuss challenges and limitations in treating multidrug-resistant organisms and C.auris infections.
