Event Agenda

Thursday, December 4, 2025 at 7:30pm ET - 8:45pm ET

i All times listed in Eastern Time (US & Canada).

Thursday, December 4, 2025

7:30pm - 8:45pm

Decreased Vascular Access Complications: The Positive Impact on Patients, Clinicians, and Healthcare

Michele Biscossi, ACNP-BC, MS, RN, CNL, VA-BC

1.0 CE Credit

Learning Objectives

1. Understand the cause and effect that peripheral intravenous device (PIVC) complications have on catheter dwell time.
2. Highlight the impact that longer PIVC dwell times have on patient outcomes, clinician efficiency, and associated costs.
3. Recognize that by applying evidence-based best practice standards longer PIVC dwell times are obtainable.
4. Be empowered to become a change agent in your organization to promote and successfully implement protected clinical indication of PIVs
